‹ Paul Geană

Frontend Developer

Iasi
Str. Alexandru cel Bun

About

Hello, my name is Paul and I am a self-taught frontend developer. In the last year I have learned technologies such as HTML, CSS/SCSS, JavaScript(AJAX, DOM manipulation, etc), Bootstrap and ReactJs. During these years I also learned about UI/UX Design, also knowing technologies such as Figma and Adobe Illustrator.
I am an open-minded person, motivated to learn more and more.

Education

I finished a high school with a vocational profile at the end of which I obtained the baccalaureate diploma.
On the frontend development side, I followed both paid and free courses, and on the UI/UX Design side, I followed Google's UI/UX courses.

Technical skills

| HTML | CSS/SCSS | ReactJs |

Java Script

| Adobe Illustrator | Figma |

Personal skills

- Disciplined
- Oriented towards both technical and visual work
- Friendly and communicative
- Problem solving
- Attentive to details

Working experience

I worked on my project portfolio and on my knowledge for more than a year, and that`s why i think i have gathered the minimum knowledge for a position of junior frontend developer.
